Drilling Update

Drilling is progressing at Westralian Gas and Power's (WGP) Kaloorup Road Prospect near Busselton. The well penetrated the Permian Sue River Coal Measures at approximately 110m and reached 140m on Friday 26th February. Casing was run to this depth and cemented in place.

Drilling will recommence on Tuesday 2nd March with the aim to test the zone between 310 and 340m for any gas shows similar to those recorded in the Busselton #1 well drilled in 1974, then to proceed on to 450m to log the lower part of the Sue river coal measures.
